Scanning and Verifying Systems

Bar Code Scanners from

IDTECH
Value through Innovation

ID TECH is a Leader in Automatic Identification Technology Products.

ID TECH designs and manufactures a wide range of Automatic Identification Products and components, which include MagStripe, Smart and Contactless Card Reader/Writers, Bar Code readers, CCD scanners, POS Keyboards, and Secure PIN Entry products. ID TECH supports standard products and custom solutions for the Point of Sale, Hospitality, Access Control, Transportation, Gaming, and Kiosk Industries. Our products are feature rich and provide practical, economical solutions to customer needs.

Founded in 1991, ID TECH has built a reputation for technical excellence through its development of reliable and innovative products that have allowed ID TECH to be the fastest growing company in our industry.

Handheld Scanners

EconoScan CCD Scanner

Product Line Information
ID TECH's EconoScan CCD Scanner is specially designed to deliver high-end performance at the lowest possible price. The scanner utilizes exceptional decoding technology. One-time settings are easily made by scanning set-up bar codes in the handy user's manual. For non-contact environments or for larger bar codes the Econscan can scan bar codes of up to 4.7 inches in length at a distance of 4.7 inches for an economical alternative to laser scanning. This rugged scanner contains no moving parts yet it is exceptionally lightweight and designed to fit comfortably in the hand for extended periods of usage. The cable is detachable for easy replacement or the use of multiple interfaces. The EconoScan enables quick contact scanning of bar codes up to 3.5 inches in length. At a scan rate of 150 scans per second low-quality or damaged bar codes as well as small or high-density bar codes can be read with exceptional speed and accuracy.

Features & Benefits
• Ergonomic and lightweight design for superior handling
• High-speed contact scanning range up to 4.72 inches
• Rugged design for industrial environment
• Supports most barcode symbologies
• Trouble-free interchangeable communication cable between KB, RS232, and USB interface
• Data formatting features
• Configuration cloning capability
• Continuous and flash scanning mode

VersaScan CCD Scanner

Product Line Information
ID TECH VersaScan Long Range CCD Scanner is specially designed to deliver high-end performance with the scanning range from contact to 15 inches depending on the barcode density. The scanner utilizes advanced scanning & decoding technology. The scanned data is formatted to meet the user needs. This rugged scanner is lightweight and designed to fit comfortably in the hand for extended periods of use. The cable is detachable for easy replacement or change of interfaces.

Features & Benefits
- Ergonomic handling design & light weight
- Long range scanning up to 15 inches
- Rugged design for industrial environment
- Supports most barcode symbologies
- Trouble-free interchangeable communication cable between KB, RS232, and USB interface
- Data editing & formatting features
- Configuration cloning capability
- 230 scans per second
- Continuous and flash scanning mode

EconoWand™ Stainless Steel Barcode Scanning Wand

Product Line Information
With a stainless steel housing, the EconoWand is a low cost handheld wand that enables quick contact scanning of virtually any length. The hand-held wand is comfortable to hold and use. The scanner decodes all popular bar code symbologies and outputs the data in user programmable formats, including postamble, preamble, and code ID's. A beep tone indicates successful bar code reads and there are no moving parts.

Features & Benefits
- Ergonomic design for comfortable handling
- Contact Scanning
- Rugged design for industrial environment
- Supports most barcode symbologies
- Trouble-free interchangeable communication cable between interfaces
- Data formatting features
- Stainless Steel housing
- USB, Wedge or RS232 Interface - Select from popular interfaces
