Intermec Inc.

Is a leader in global supply chain solutions and in the development, manufacture and integration of wired and wireless automated data collection, Intermec RFID (radio frequency identification), mobile computing systems, bar code printers and label media. The company's products and services are used by customers in many industries to improve productivity, quality and responsiveness of business operations, from supply chain management and enterprise resource planning to field sales and service.

Bar Code Scanners

Intermec's family of handheld scanners addresses the needs of users in virtually every scanning environment. From handheld scanners or decoders to integrated scan engines, Intermec has the right scanner for any application.

Light Industrial Scanners • The convenience of scanning automation, with features you need, at the right price.

Primarily used for arms length scanning, Intermec light industrial scanners are feature-rich for point of service applications including light industrial, retail, and healthcare. Features industry leading Intermec scan technology in laser, area imaging, and linear imaging. Tethered and wireless options are available.

ScanPlus 1800 Handheld Scanner

Product Line Information

The Intermec 1800 Series is a cost effective yet full-featured supply chain solution for retail office healthcare and light industrial applications. Offering the flexibility of CCD or laser versions the 1800 Series is a fast and accurate answer for your contact and non-contact scanning needs.

Features & Benefits

- Choice of scanning technologies: CCD or Laser
- Ergonomic, easy to pick up and use
- Fast reading and decoding of all bar codes; even damaged or poorly printed codes
- Fastest ever setup using EasySet System software for Windows. Print and scan a bar code menu or download a configuration to flash memory
- Highly cost-efficient and flexible solution for retail, office, healthcare and light industrial applications
- Single, universal interface. Cable provides for simple connectivity to PCs and hundreds of terminals

ScanPlus 1800 Vista **Handheld Scanner**

Product Line Information

Lightweight and ergonomic the ScanPlus 1800 Vista is comfortable to operate. Its sharp scan line makes aiming easy within acceptable levels of illumination to ensure worker safety. The ScanPlus 1800 Vista is fast with a scan rate of up to 225 scans/sec. Utilizing a 49.2cm-19.4 depth of field the 1800 Vista is great for reading long damaged poorly printed or small bar width bar codes under any light conditions. Intermec's ScanPlus 1800 Vista incorporates no moving parts for a longer life than most scanners. The 1800 Vista withstands multiple drops to concrete and extreme temperatures for reliability you can depend on. Use the 1800 Vista for both contact and non-contact applications. Compatible with over 400 host interfaces the 1800 Vista supports all standard 1D symbologies as well as PDF-417. Future upgrades and applications are easy to implement with flash memory and configuration is easy with EasySet set up software.

Features & Benefits

- Application flexibility
 - Easy to-use design
 - EasySet configuration software
 - High performance
 - Outstanding reliability
-

ScanPlus 1802 Vista **Cordless Scanner**

Product Line Information

With its innovative design the ScanPlus 1802 Vista handheld bar code scanner brings cordless technology to the healthcare retail office and light industrial environments. The ScanPlus 1802 Vista is appropriate for a variety of applications including patient billing patient tracking medicine dispensing UPN compliance price management asset-document tracking and PC fabrication and assembly. Scanning is easier when all bar codes are within your reach and there is no cable to become entangled or damaged. The ScanPlus 1802 Vista scanner offers the exceptional speed and performance of Intermec's patented Vista technology for fast reading and decoding of all bar codes including damaged or very small codes.

Features & Benefits

- 10,000 scans for a full day use
 - Bi-directional communication
 - Cable free design for exceptional mobility and safety
 - Completely integrated, ergonomic design and lightweight for easy use
 - More than 1500 interfaces available
 - Multiple scanners can interface with a single base station
 - Patented Vista-quality scanning
 - PDF 417 decoding with manual raster, and new Reduced Space Symbology (RSS) decoding
 - Range up to 50 feet (15 meters) from base station
 - Use of EasySet setup software (for Windows) for quick and easy installation
-

Rugged Scanners • Feature-rich scanning for your heavy-duty industrial environments.

Designed to withstand the harsh realities – temperature variances, drops, dust and weather – Intermec rugged scanners keep your business running. Features industry leading Intermec scan technology in laser, area imaging, and linear imaging. Tethered and wireless options are available.

Sabre 1400 Industrial Linear Imager

Product Line Information

Data collection needs continue to change and grow and it's no secret that Intermec builds relationships by bringing real value to our customers which is why we are pleased to offer the Sabre 1400 Linear Imager. Targeted at industrial and heavy-duty applications this Vista-powered linear imager is ideal for applications in warehouse and distribution and any-where durability and strength are required. The Sabre 1400 combines the exceptional speed and performance of Intermec's patented Vista technology with the range and precision of laser scanners. A scanning range of up to 19 inches on damaged or poorly printed bar codes an intuitive bright sharp scan line and ergonomic design make the 1400 extremely user friendly. Built on the highly acclaimed Sabre platform of scanners the 1400 carries one of the highest durability ratings of any scanner on the market. Windblown rain and dust arctic to desert temperatures and off-road vehicle vibrations are no match for the 1400 proving the 1400 is built for the harshest environments. What's more exceptional durability combined with low power consumption makes the Sabre 1400 an excellent choice for portable data collection in warehouse manufacturing and distribution applications. Capturing data at a rate of 270 scans per second nearly 7 times faster than conventional laser scanners the 1400 has an insatiable need for speed. Plus the 1400 will capture bar codes directly off the display of a laptop or vehicle mounted computer a feature laser scanners only dream about.

Features & Benefits

- Patented Vista™ Technology
 - Scan rate of 270 scans/second
 - Durable Sabre design withstands harsh environments
 - Reads poor quality or damaged bar codes out to 19 inches
 - Five-year warranty guarantees customer satisfaction
 - Free EasySet configuration utility makes initial setup a snap
-

Sabre 1550 Undecoded Scanner

Product Line Information

The Intermec Sabre 1550 scanner enhances the productivity of your operators through a design that combines ease-of-use performance and durability in virtually any environment. The Intermec Sabre 1550 offers dependability in virtually all environments withstanding repeated drops of up to 6 feet. With plenty of rubber and a protective window this rugged scanner promises reduced down-time due to equipment failure that comes from real work in real-world conditions. The Sabre 1550 offers your choice of scan engine optics for flexibility in your scanning applications. Standard range versions can read 5 mil high-density code or 100 mil retro reflective code. Operators will find the 1550 well balanced lightweight and easy to use in either hand. A large trigger and integrated site make aiming quick and simple further increasing operational efficiency.

Features & Benefits

- Choice of scan engine optics
 - Durability in all environments
 - Large interface list for easy set-up
 - Lightweight and comfortable for easy use
-

Sabre 1551E Integrated Decoded Scanner

Product Line Information

The Intermec Sabre 1551E is the first Sabre Handheld Scanner capable of consistently reading both linear and PDF417 codes at high speed. The 1551E is an impressive combination of comfort durability and performance. And of course the E stands for easy setup with Intermec's EasySet configuration software free of charge. Boasting plenty of rubber and a protected window the 1551E can withstand repeated drops of up to 183cm (6feet) wind and rain off road vehicle vibration levels and below freezing temperatures. Standard range for the 1551E includes reading as small as 5mil code or 100 mil reflective code. Choose the advanced long-range model to read distances up to 8.1m (27ft). The high-speed laser scanner engine reads linear and PDF417 barcodes for increased flexibility and productivity. You won't waste time getting started. Just point and click to print a barcode that configures you scanner with a single scan. Using EasySet setup software any member of your organization can configure the 1551E.

Features & Benefits

- Built in decoder eliminates separate decoder device
 - Choice of scan engine optics
 - Durable design for harsh environments
 - EasySet configuration software included
 - Optional scanner and cable kits available
-

Sabre 1552 Decoded Cordless Scanner

Product Line Information

Increase the flexibility of your industrial scanning applications with the rugged Intermec Sabre 1552 wireless scanner. The Sabre 1552 gives your workers the freedom to go up to 50 feet to the job instead of moving the job to them. Also up to ten scanners can interface with one base station, which means lower overall acquisition costs for your operation. With no cables to damage or become entangled the Intermec Sabre 1552 wireless scanner gives your workers the flexibility they need to be more productive. The Sabre 1552 allows your workers to go to the job instead of the job coming to them. You can also choose from keyboard wedge RS-232 POS terminal or wand emulation interfaces and standard long range high density and high visibility laser scan engines allowing even greater application versatility for your operation.

Features & Benefits

- Comfortable and light-weight for easy use
 - Cordless design eliminates cables for safer and more reliable scanning
 - Durable design withstands the harshest environments
 - Smart battery packs with integral charger eliminate the need for a separate charger
 - Unlicensed radio frequency transmission for maximum application flexibility
 - Up to ten scanners can interface to a single base station for lower acquisition costs
-

SF51 Cordless Scanner

Product Line Information

The combination of a flashlight style form factor and magnetic attach/release mechanism of the new Intermec SF51 cordless scanner renders a compact, unique scanning device that easily fits in your hand or clipped to your waist. An extremely durable scanner with a wireless personal area network (PAN) radio based on Bluetooth communication protocol, the SF51 can cordlessly connect to Intermec terminals including the CV60, CK30, and 700 Series, without a base station, delivering an affordable, high performance solution for scan intensive applications.

Features & Benefits

- Bluetooth radio enabled for a cordless connection to Intermec terminals and personal computers
 - Industrial durability stands up to harsh environments and multiple drops
 - Intermec EV10 linear scan engine delivers unparalleled flexibility by reading high density, PDF and standard range bar codes
 - Small size is easily articulated in your hand for scanning
 - Unique form factor and quick attach/release mechanism for truly hands-free scanning
-

SR60 XLR Scanner

Product Line Information

Intermec's SR60 is a tethered, handheld industrial strength laser scanner designed to meet the needs of users who require extra long range scanning. The SR60 scanner is designed to enable users to quickly and easily scan barcodes near and far, from as close as 27 inches (71 cm) to 36 feet (11 meters) away. This scanner is ideal for industrial applications including warehouse management, work in process, and in-transit visibility applications. The industrial design of the SR60 ensures minimal downtime for users. The SR60 withstands multiple drops to concrete from 6.5 feet, cold and hot temperatures, and is sealed to withstand dirt and incidental water. This enables users to utilize the SR60 for scanning applications inside and out including rigid freezer environments. The SR60 supports multiple interface options including RS232, keyboard wedge, USB, and wand emulation and seamlessly connects to Intermec terminals increasing mobility and productivity while keeping costs down. The SR60 not only supports Intermec legacy handheld computers and vehicle mount terminals, but also the new CK30, CK31, CK60, 700 Series computers and CV60 vehicle mount terminal.

Features & Benefits

- Supports multiple interface options including Serial, USB, Keyboard Wedge, and Wand Emulation
 - Comfortable and light weight for easy use
 - Scans barcodes up to 36 feet (11 meters) away
 - Forklift mount and dangle suspension for easy access scanning
 - Industrial durability withstands harsh environments
 - Interfaces with new and legacy Intermec computers and vehicle mount terminals
-

SR61 Cordless Scanner

Product Line Information

Intermec's SR61 handheld cordless scanner incorporates the flexibility and rugged design of a handheld scanner with the seamless functionality of wireless communication. The SR61 features a personal area network (PAN) radio based on Bluetooth communication protocol, making scanning easier and safer with no costly cables to damage or become entangled. Users gain hassle-free mobility up to 30 meters (100 feet) from the host. With multiple scan options, including linear, area and standard range laser, the SR61 allows users to configure the scanner to meet the specific needs of their environment, whether they include reading specific barcode symbologies, decoding poor quality or damaged barcodes with ease or utilize image capture for proof of delivery and point of service applications.
